

AEG 5240 battery meets all OE criteria from the vehicle manufacturer and is suggested for conventional vehicles without Start-Stop systems. It is manufactured with most modern technology in certified factories. The maintenance-free battery design relieves you from adding water to the battery.

PERFORMANCE

Nominal Voltage [V] :	12
20HR Capacity [AH] :	62
Reserve Capacity [MIN] :	100
Cold Cranking Amps (EN) [A] :	580

DIMENSIONS AND WEIGHT

Length [mm] (±1,5) :	242
Width [mm] (±1,5) :	175
Height [mm] (±1,5) :	190
Total Height [mm] (±1,5) :	190
Battery Weight [kgr] (±0,5) :	15,5

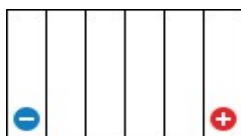

Case :	Silver/Grey
Cover :	Silver/Grey
Handle :	Silver/Grey

ADDITIONAL INFORMATION

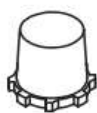

Technology :	Flooded / SMF
Box size :	H5 / L2
Sort Code:	A22
UK-code :	027
ETN :	562 408 058
